

## Reasoning

## Syllogism

## Level-2

**Q1** Directions: In the question given below, some statements are given followed by conclusion. Some words from the statement are missing. On the basis of given conclusions, you have to choose which of the given word should be placed in the blank to complete the statement.

**Statement:**

All books are paper

Some notebooks are \_\_\_\_\_

Some notebooks are register

No register is notepad

Some drawing are \_\_\_\_\_

**Conclusion:**

Some books are register

Some drawing are notepad

1. Drawing, paper

2. Paper, book

3. Paper, notepad

(A) Only I

(B) Either II or III

(C) Only III

(D) Either I or II

(E) None of these option correct

**Q2** Directions: In the question given below, some statements are given followed by conclusion. Some words from the statement are missing. On the basis of given conclusions, you have to choose which of the given word should be placed in the blank to complete the statement.

**Statement:**

All hills are forest

Some garden are \_\_\_\_\_

All garden are river

No river is \_\_\_\_\_

**Conclusion:**

Some forest are river

Some hills are soil is a possibility

1. Hills, soil

2. Soil, forest

3. Forest, soil

(A) Only I

(B) Either II or III

(C) Only III

(D) Either I or III

(E) None of the option is correct

**Q3** Directions: In the question given below, some statements are given followed by conclusion. Some words from the statement are missing. On the basis of given conclusions, you have to choose which of the given word should be placed in the blank to complete the statement.

**Statement:**

All tea are plants

Some plants are coffee

Some milk are \_\_\_\_\_

No milk is black

Some black are \_\_\_\_\_

**Conclusion:**

Some coffee are not milk

Some milk are not juice

1. Juice, tea

2. Tea, juice

3. Juice, coffee

(A) Only I

(B) Either II or III

(C) Only III

(D) Either I or II

(E) none of the given options are true

**Q4 Directions:** In the question given below, some statements are given followed by conclusion. Some words from the statement are missing. On the basis of given conclusions, you have to choose which of the given word should be placed in the blank to complete the statement.

**Statement:**

Only a few sand are clay

No Loam is \_\_\_\_\_

Some silt are loam

Some silt are not \_\_\_\_\_

**Conclusion:**

Some silt are not clay

Some sand are not loam

1. Peat, Clay

2. Sand, Peat

3. Clay, Peat

(A) Only I

(B) Either II or III

(C) Only III

(D) Either I or II

(E) Only II

**Q5 Directions:** In the question given below, some statements are given followed by conclusion. Some words from the statement are missing. On the basis of given conclusions, you have to choose which of the given word should be placed in the blank to complete the statement.

**Statement:**

Some black are \_\_\_\_\_

No black is red

Only a few red are green

No orange is \_\_\_\_\_

**Conclusion:**

Some blue are red

Some red is orange

1. Blue, black

2. Green, blue

3. Blue, green

(A) Only I

(B) Either II or III

(C) Only III

(D) Either I or II

(E) None of the option is correct

**Q6 Directions:** In the question given below, some statements are given followed by conclusion. Some words from the statement are missing. On the basis of given conclusions, you have to choose which of the given word should be placed in the blank to complete the statement.

**Statement:**

Some cloth are silk

All silk is \_\_\_\_\_

No cotton is muslin

All \_\_\_\_\_ is muslin

**Conclusion:**

Some silk are not wool

Some cloth are not muslin

1. Cotton, wool

2. Wool, cloth

3. Wool, wool

(A) Only I

(B) Either II or III

(C) Only III

(D) Only II

(E) None of the option is correct

**Q7** In the question given below, some statements are given followed by conclusion. Some words

from the statement are missing. On the basis of given conclusions, you have to choose which of the given word should be placed in the blank to complete the statement.

**Statement:**

Some earrings are \_\_\_\_\_

No earring is bangle

All bangles are glass

No glass is \_\_\_\_\_

**Conclusion:**

Some rings are earrings

Some rings are not necklace

1. Necklace, ring
2. Ring, necklace
3. Glass, necklace

- (A) Only I  
(B) Either II or III  
(C) Only III  
(D) Either I or II  
(E) None is true

**Q8** In the question given below, some statements are given followed by conclusion. Some words from the statement are missing. On the basis of given conclusions, you have to choose which of the given word should be placed in the blank to complete the statement.

**Statement:**

Some monitor are USB

All USB are mouse

No keyboard are \_\_\_\_\_

All keyboard are CPU

No CPU are \_\_\_\_\_

**Conclusion:**

Some monitor are keyboards

Some USB are not printers

1. Printer, Mouse
  2. Monitor, printer
  3. Mouse, printer
- (A) Only I  
(B) Either II or III  
(C) Only III  
(D) Either I or II  
(E) None is true

**Q9** In the question given below, some statements are given followed by conclusion. Some words from the statement are missing. On the basis of given conclusions, you have to choose which of the given word should be placed in the blank to complete the statement.

**Statement:**

Some music are \_\_\_\_\_

All music are theater

No theater is mall

Some screen are \_\_\_\_\_

**Conclusion:**

Some music are not screen

Some theater are movie

1. Screen, movie
1. Movie, mall
2. Movie, music

- (A) Only I  
(B) Either II or III  
(C) Only III  
(D) Either I or II  
(E) None is true

**Q10** In the question given below, some statements are given followed by conclusion. Some words from the statement are missing. On the basis of given conclusions, you have to choose which of the given word should be placed in the blank to complete the statement.

**Statement:**

Some speaker are boat  
 Only a few boat are Anker  
 No anker is \_\_\_\_\_  
 All sonos are \_\_\_\_\_

**Conclusion:**

Some Bose are not Anker  
 Some boat are not sonos

1. Bose, anker
  2. Bose, speaker
  3. Sonos, Bose
- (A) Only I  
 (B) Either II or III  
 (C) Only III  
 (D) Either I or II  
 (E) None is true

**Q11** In the question given below, some statements are given followed by conclusion. Some words from the statement are missing. On the basis of given conclusions, you have to choose which of the given word should be placed in the blank to complete the statement.

**Statement:**

No student is boy  
 Some girls are \_\_\_\_\_  
 Some girls are teachers  
 No teacher is \_\_\_\_\_

**Conclusion:**

Some girls are not students  
 Some school can be boys

1. Student, school
  2. School, boys
  3. Boys, school
- (A) Only II  
 (B) Either I or II

- (C) Only III  
 (D) Either I or III  
 (E) None is true

**Q12** In the question given below, some statements are given followed by conclusion. Some words from the statement are missing. On the basis of given conclusions, you have to choose which of the given word should be placed in the blank to complete the statement.

**Statement:**

Some buckets are \_\_\_\_\_  
 No bucket is mug  
 Some tanks are \_\_\_\_\_  
 No tank is bottle

**Conclusion:**

Some jars are not mugs  
 Some mugs are not bottles

1. Jars, bucket
  2. Jars, mug
  3. Bottle, mug
- (A) Only I  
 (B) Either I or II  
 (C) Only II  
 (D) Either II or III  
 (E) None is true

**Q13** In the question given below, some statements are given followed by conclusion. Some words from the statement are missing. On the basis of given conclusions, you have to choose which of the given words should be placed in the blank to complete the statement.

**Statement:**

Only a few education are school  
 Only a few school are college  
 No university is \_\_\_\_\_

Some university are \_\_\_\_\_

**Conclusion:**

Some education are not institute

Some college are institute

1. Institute, college
2. College, institute
3. Education, institute

- (A) Only I  
(B) Either II or III  
(C) Only III  
(D) Either I or II  
(E) None is true

**Q14** In the question given below, some statements are given followed by conclusion. Some words from the statement are missing. On the basis of given conclusions, you have to choose which of the given words should be placed in the blank to complete the statement.

**Statement:**

Some trolley are \_\_\_\_\_

No trolley is suitcase

Some suitcase is backpack

Only a few backpacks are \_\_\_\_\_

**Conclusion:**

All bag are suitcase

Some purse are trolley

1. Purse, bag
2. Bag, purse
3. Bag, trolley

- (A) Only I  
(B) Either II or III  
(C) Only III  
(D) Either I or II  
(E) None is true

**Q15** In the question given below, some statements are given followed by conclusion. Some words

from the statement are missing. On the basis of given conclusions, you have to choose which of the given words should be placed in the blank to complete the statement.

**Statement:**

All \_\_\_\_\_ are snips

All tools are snips

No snip is bolt

Some bolt is \_\_\_\_\_

**Conclusion:**

Some wires are not bolt

Some nails are not snips

1. Nail, wire
  2. Wire, nail
  3. Nail, snip
- (A) Only I  
(B) Either I or II  
(C) Only II  
(D) Either II or III  
(E) None is true

**Q16** The Question has a set of seven statements followed by options consisting of three statements put together in a specific order. Choose the options that indicate a combination where the third statement can be logically deducted from the first two statements and that option will be your answer.

**Statements:**

- I. Some B are not C.
- II. Some D are C.
- III. Some D are Z.
- IV. Some G are C.
- V. All Z are B.
- VI. Some F can be B.
- VII. All D are G

(A) II, III, V

(B) III, V, II

- (C) III, I, VI  
(E) None of these
- (D) II, VII, IV

**Q17** Read both the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

**Statements:**

All black are orange  
All orange are violet  
No violet is red

**Conclusions:**

- I. Some black are red  
II. All violet is orange  
(A) Only I follow  
(B) Only II follow  
(C) Both I and II follow  
(D) Neither I nor II follow

- (E) Either I or II follow

**Q18** Read both the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

**Statements:**

All white are yellow  
Some yellow are blue  
No blue is pink

**Conclusions:**

- I. All yellow being pink is a possibility  
II. Some white are blue  
(A) Only I follow  
(B) Only II follow  
(C) Both I and II follow  
(D) Neither I nor II follow  
(E) Either I or II follow

## Hints & Solutions

### Q1 Text Solution:

#### Statement:

All books are paper

Some notebooks are \_\_\_\_\_

Some notebooks are register

No register is notepad

Some drawing are \_\_\_\_\_

1. **Drawing, paper:** if we place drawing in the first blank and paper in second blank then the least possible venn-diagram is given below

#### Conclusion:

Some books are register: false

Some drawing are notepad: false

2. **Paper, book:** if we place paper in the first blank and book in second blank then the least possible venn-diagram is given below

#### Conclusion:

Some books are register: false

Some drawing are notepad: false

3. **Paper, notepad :** if we place paper in the first blank and notepad in second blank then the least possible venn-diagram is given below

#### Conclusion:

Some books are register: false

Some drawing are notepad: true

Therefore, none of the given options are true.

### Q2 Text Solution:

#### Statement:

All hills are forest

Some garden are \_\_\_\_\_

All garden are river

No river is \_\_\_\_\_

1. Hill, soil: if place hill in first blank and soil in second blank, the least possible venn-diagram is given below

#### Conclusion:

Some forest are river: true

Some hills are soil is a possibility: true

2. Soil, forest: if we place soil in first blank and forest in second blank then the least possible venn diagram is given below

#### Conclusion:

Some forest are river: false

Some hills are soil is a possibility: true

3. Forest, soil : if we place forest in first blank and soil in second blank then the least possible venn diagram is given below

**Conclusion:**

Some forest are river: true

Some hills are soil is a possibility: true

Therefore, I and III are the correct option to be placed in the black.

**Q3 Text Solution:****Statement:**

All tea are plants

Some plants are coffee

Some milk are \_\_\_\_\_

No milk is black

Some black are \_\_\_\_\_

1. **Juice, tea:** if we place juice in the first blank and tea in second blank then the least possible venn-diagram is given below

**Conclusion:**

Some coffee are not milk: false

Some milk are not juice: false

2. **Tea, juice:** if we place tea in the first blank and juice in second blank then the least possible venn-diagram is given below

**Conclusion:**

Some coffee are not milk: false

Some milk are not juice: true

3. **Juice, coffee:** if we place tea in the first blank and juice in second blank then the least possible venn-diagram is given below

**Conclusion:**

Some coffee are not milk: true

Some milk are not juice: false

Therefore, none of the given options are true.

**Q4 Text Solution:****Statement:**

Only a few sand are clay

No Loam is \_\_\_\_\_

Some silt are loam

Some silt are not \_\_\_\_\_

1. **Peat, clay:** if we place peat in the first blank and loam in the second blank, the least possible venn-diagram will be

**Conclusion:**

Some silt are not clay: True

Some sand are not loam: False

2. **Sand, Peat:** if we place sand in the first blank and loam in the second blank, the least possible venn-diagram is

**Conclusion:**

Some silt are not clay: False

Some sand are not loam: True

3. **Clay, Peat:** if we place loam in the first blank and peat in second blank than the least possible venn diagram is given below

**Conclusion:**

Some silt are not clay: True

Some sand are not loam : True

Therefore, III is the correct option.

**Q5 Text Solution:**

**Statement:**

Some black are \_\_\_\_\_

No black is red

Only a few red are green

No orange is \_\_\_\_\_

1. **Blue, black:** if we place blue in the first blank and black in the second blank, the least possible venn-diagram is given by

**Conclusion:**

Some blue are red: false

Some red is orange: false

2. **Green, blue:** if we place green in the first blank and blue in the second blank, the least possible venn-diagram is

**Conclusion:**

Some blue are red: false

Some red is orange: false

3. **Blue, green:** if we place blue in the first blank and green in the second blank, the least possible venn-diagram is given by

**Conclusion:**

Some blue are red: false

Some red is orange: false

Therefore, none of the option is correct.

**Q6 Text Solution:**

**Statement:**

Some cloth are silk

All silk is \_\_\_\_\_

No cotton is muslin

All \_\_\_\_\_ is muslin

1. Cotton, wool: if we place cotton in first blank and wool in second blank, the least possible venn-diagram is given below

**Conclusion:**

Some silk are not wool: true

Some cloth are not muslin: true

2. Wool, cloth : if we place wool in first blank and cloth in second blank than the least possible venn diagram is given below

**Conclusion:**

Some silk are not wool: false

Some cloth are not muslin: true

3. Wool, wool: if we place wool in first blank and wool in second blank then the least possible venn diagram is given below

**Conclusion:**

Some silk are not wool: false

Some cloth are not muslin: true

Therefore, I is the correct option to be placed in the black.

**Q7 Text Solution:****Statement:**

Some earrings are \_\_\_\_\_

No earring is bangle

All bangles are glass

No glass is \_\_\_\_\_

1. **Necklace, ring:** if we place glass in the first blank and necklace in second blank then the least possible venn-diagram is given below

**Conclusion:**

Some rings are earrings: false

Some rings are not necklace: false

2. **Ring, necklace:** if we place ring in the first blank and necklace in second blank then the least possible venn-diagram is given below

**Conclusion:**

Some rings are earrings: true

Some rings are not necklace: false

3. **Glass, necklace:** if we place glass in the first blank and necklace in second blank then there is no ring and so conclusion would not follow.

Some rings are earrings : false

Some rings are not necklace : false

Therefore, none of the given options are true.

**Q8 Text Solution:****Statement:**

Some monitor are USB

All USB are mouse

No keyboard are \_\_\_\_\_

All keyboard are CPU

No CPU are \_\_\_\_\_

1. **Printer, mouse:** if we place printer in the first blank and mouse in second blank then the least possible venn-diagram is given below

**Conclusion:**

Some monitor are keyboards: false

Some USB are not printers: false

2. **Monitor, printer:** if we place monitor in the first blank and printer in second blank then the least possible venn-diagram is given below

**Conclusion:**

Some monitor are keyboards: false

Some USB are not printers: false

3. Mouse, printer: if we place mouse in the first blank and printer in second blank then the least possible venn-diagram is given below

**Conclusion:**

Some monitor are keyboards: false

Some USB are not printers: false

Therefore, none of the given options are true.

**Q9 Text Solution:****Statement:**

Some music are \_\_\_\_\_

All music are theater

No theater is mall

Some screen are \_\_\_\_\_

1. **Screen, movie:** if we place screen in the first blank and movie in second blank then the least possible venn-diagram is given below

**Conclusion:**

Some music are not screen: false

Some theater are movie: false

2. **Movie, mall:** if we place movie in the first blank and mall in second blank then the least possible venn-diagram is given below

**Conclusion:**

Some music are not screen: false

Some theater are movie: true

3. **Movie, music :** if we place movie in the first blank and mall in second blank then the least possible venn-diagram is given below

**Conclusion:**

Some music are not screen: false

Some theater are movie: true

Therefore, none of the given options are true.

**Q10 Text Solution:****Statement:**

Some speaker are boat

Only a few boat are Anker

No anker is \_\_\_\_\_

All sonos are \_\_\_\_\_

1. Bose, anker: if place bose in first blank and anker in second blank, the least possible venn-diagram is given below

**Conclusion:**

Some Bose are not Anker: true

Some boat are not sonos: false

2. bose, speaker: if we place sonos in first blank and boat in second blank then the least possible venn diagram is given below

**Conclusion:**

Some Bose are not Anker: true

Some boat are not sonos: false

3. sonos, bose: if we place sonos in first blank and bose in second blank then the least possible venn diagram is given below

**Conclusion:**

Some Bose are not Anker: true

Some boat are not sonos: true

Therefore, III is the correct option to be placed in the blank.

**Q11 Text Solution:****Statement:**

No student is boy

Some girls are \_\_\_\_\_

Some girls are teachers

No teacher is \_\_\_\_\_

1. **Student, school:** if we place student in first blank and school in second blank. The least possible venn diagram is given by

**Conclusion:**

Some girls are not students: false

Some school can be boys: true

2. **School, boys:** if we place school in first blank and boys in second blank. The least possible venn diagram is given by

**Conclusion:**

Some girls are not students: false

Some school can be boys: true

3. **Boys, school:** if we place boy in first blank and school in second blank. The least possible venn diagram is given below.

**Conclusion:**

Some girls are not students: true

Some school can be boys: true

Therefore, III option is correct.

**Q12 Text Solution:****Statement:**

Some buckets are \_\_\_\_\_

No bucket is mug

Some tanks are \_\_\_\_\_

No tank is bottle

1. Jars, bucket: if we place jars in first blank and bucket in second blank. The least possible venn diagram is given by

**Conclusion:**

Some jars are not mugs: false

Some mugs are not bottles: false

2. Jars, mug: if we place jars in first blank and mug in second blank. The least possible venn diagram is given by

**Conclusion:**

Some jars are not mugs: true

Some mugs are not bottles: true

3. **Bottle, mug:** if we place bottle in first blank and mug in second blank. The least possible venn diagram is given by

Which is a contradictory diagram.

Therefore, II option is the correct.

**Q13 Text Solution:****Statement:**

Only a few education are school

Only a few school are college

No university is \_\_\_\_\_

Some university are \_\_\_\_\_

1. **Institute, college:** if we place institute in the first blank and college in the second blank, the least possible venn-diagram is given by

**Conclusion:**

Some education are not institute: false

Some college are institute: false

2. **College, institute:** if we place college in the first blank and institute in the second blank, the least possible venn-diagram is given by

**Conclusion:**

Some education are not institute: false

Some college are institute: false

3. **Education, institute:** if we place education in the first blank and institute in the second blank, the least possible venn-diagram is given by

**Conclusion:**

Some education are not institute: true

Some college are institute: false

**Therefore, none of the option is correct.**

**Q14 Text Solution:****Statement:**

Some trolley are \_\_\_\_\_

No trolley is suitcase

Some suitcase is backpack

Only a few backpacks are \_\_\_\_\_

1. **Purse, bag:** if we place purse in the first blank and bag in the second blank, the least possible venn-diagram is given by

**Conclusion:**

All bag are suitcase: false

Some purse are trolley: true

2. **Bag, purse:** if we place bag in the first blank and purse in the second blank, the least possible venn-diagram is given by

**Conclusion:**

All bag are suitcase: false

Some purse are trolley: false

3. **Bag, trolley:** if we place bag in the first blank and trolley in the second blank, the least possible venn-diagram is given by

**Conclusion:**

All bag are suitcase: false

Some purse are trolley: false

Therefore, none of the option is correct.

**Q15 Text Solution:**

**Statement:**

All \_\_\_\_\_ are snips

All tools are snips

No snip is bolt

Some bolt is \_\_\_\_\_

1. Nail, wire: if we place nail in first blank and wire in second blank. The least possible venn diagram is given by

**Conclusion:**

Some wires are not bolt: true

Some nails are not snips: false

2. Wire, nail: if we place wire in first blank and nail in second blank. The least possible venn diagram is given by

**Conclusion:**

Some wires are not bolt: true

Some nails are not snips: true

3. Nail, snip: if we place nail in first blank and snip in second blank. There will be contradiction in the diagram.

Therefore, II option is the correct.

**Q16 Text Solution:**

**Hence, option D is the correct answer.**

Final answer:

**Statements:**

II. Some D are C.

VII. All D are G

**Conclusion:**

IV. Some G are C.

**Q17 Text Solution:**

Conclusion I: Some black are red

Some black are red is not true as all black are violet and no violet is red.

Conclusion II: All violet is orange

All violet is orange is not true as all orange are violet.

Neither I nor II follow.

Q18 Text Solution:

Conclusion I: All yellow being pink is a possibility  
All yellow can never be pink because some yellow are blue and no blue is pink.

Conclusion II: Some white are blue

Some white are blue is not true, as there is no direct relationship between white and blue in the diagram.

**Neither I nor II follow.**
