Reasoning

Syllogism

Level-3

Q1 Read both the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:
All bike are train
Only a few train are car
Only a few car are bicycle
Conclusions:
I. All car can be bicycle
II. All bike are car
III. Some bicycle can be bike
(A) Only I and II follow
(B) Only II and III follow
(C) Only II follow
(D) Only III follow
(E) Only I and III follow

Q2 The question has a set of seven statements followed by options consisting of three statements put together in a specific order. Choose the options that indicate a combination where the third statement can be logically deduced from the first two statements and that option will be your answer.

Statements:
I. Some B are not C.
II. Some D are A.
III. Some D are Z.
IV. Some G are C.

V. All A can be G.
VI. Some F can be B.
VII. Some G are D.
(A) II, III, VII   (B) III, V, II
(C) II, VII, V   (D) I, VII, IV
(E) None of these

Q3 The Question has a set of six statements followd by options consisting of three statements put together in a specific order. Choose the options that indicate a combination where the third statementcan can be logically deducted from the first two statements and that option will be your answer.

Statements:
I. No A is B.
II. Some D are B.
III. Some D are Z.
IV. No C are F.
V. All Z are B.
VI. Some F are not be B.
(A) II, III, V   (B) III, V, II
(C) III, I, VI   (D) III, IV, VI
(E) None of these

Q4 The Question has a set of six statements followed by options consisting of three statements put together in a specific order. Choose the options that indicate a combination where the third statement can be logically deducted

deducted from the first two statements and that option will be your answer.

Statements:
I. Some A are C.
II. Some D are B.
III. No A is B.
IV. No C are F.
V. All C are B.
VI. Some A are B.
(A) II, III, V   (B) IV, V, I
(C) I, V, VI   (D) III, IV, VI
(E) None of these

Q5 The Question has a set of six statements followed by options consisting of three statements put together in a specific order. Choose the options that indicate a combination where the third statement can be logically deducted from the first two statements and that option will be your answer.

Statements:
I. Some A are C.
II. Some D are B.
III. No A is B.
IV. No D are F.
V. Some D are A is a possibility.
VI. Some A are B.
(A) II, III, V   (B) IV, I, VI
(C) III, VI, IV   (D) III, IV, VI
(E) None of these

Q6 The Question has a set of six statements followed by options consisting of three statements put together in a specific order. Choose the options that indicate a combination where the third statement can be logically deducted from the first two statements and that option will be your answer.

Statements:
I. Some B are C.
II. Some D are C.
III. Some D are Z.
IV. Some C are F.
V. All Z are B.
VI. Some F can be B.
(A) II, III, V   (B) III, V, II
(C) III, I, VI   (D) I, IV, VI
(E) None of these

Q7 The Question has a set of six statements followed by options consisting of three statements put together in a specific order. Choose the options that indicate a combination where the third statement can be logically deducted from the first two statements and that option will be your answer.

Statements:
I. Some B are not C.
II. Some D are B.
III. Only a few B are C
IV. No D are F.
V. Some D are A is a possibility.
VI. Some A are B.
(A) II, III, VI   (B) IV, VI, I
(C) VI, III, I   (D) III, IV, VI
(E) None of these

Q8 Read both the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statement
Only a few Real is Reel
No Reel is Reality
All Reality is Fake

Conclusion

I. Some Reel can be Fake

II. Some Reality is not a Real

(A) If Only conclusion I follow

(B) If Only conclusion II follows

(C) If either conclusion I or II follows

(D) If Neither conclusion I nor II follows

(E) If both conclusions I and II follow

Q9 **Directions: Below questions consist of some statements followed by some conclusions. Study the following information carefully and decide which of the following conclusions logically follows.**

"A@B" means "Only a few A are B".

"A%B" means "Some A are B".

"A$B" means "No B is A".

"A&B" means "All B are A".

"A#B" means "Only B is A".

Statement:

B # D % A % E $ C

Conclusions:

I. All A can never be C.

II. Some B are not E.

III. Some C are not D.

(A) Both I and II follow

(B) Only III follows

(C) Both I and III follow

(D) All I, II, and III follow

(E) None follows

Q10 **Directions:Below questions consist of some statements followed by some conclusions. Study the following information carefully and decide which of the following conclusions logically follows.**

"A@B" means "Only a few A are B".

"A%B" means "Some A are B".

"A$B" means "No B is A".

"A&B" means "All B are A".

"A#B" means "Only B is A".

Statement:

E @ C, B & C, B @ D, A & D

Conclusions:

I. Some C can never be A.

II. Some D are not E is a possibility.

III. Some A are not B.

(A) Both I and II follow

(B) Only II follows

(C) Both I and III follow

(D) All I, II, and III follow

(E) None follows

Q11 **Directions:Below questions consist of some statements followed by some conclusions. Study the following information carefully and decide which of the following conclusions logically follows.**

"A@B" means "Only a few A are B".

"A%B" means "Some A are B".

"A$B" means "No B is A".

"A&B" means "All B are A".

"A#B" means "Only B is A".

Statement:

T @ Q $ S & R % P

Conclusions:

I. Some T are not R.

II. Some P are not Q is a possibility.

III. Some T are S is not a possibility.

(A) Both I and II follow

(B) Only I follows

(C) Both I and III follow

(D) All I, II, and III follow

Q16 **Directions: Analyze the data carefully and answer the questions accordingly.**

Statements:

Only a few books are pages.

No page is clear.

Only a few white are pages.

Conclusions:

I. All white can be pages.

II. All pages can't be books.

(A) If only I follows

(B) If only II follows

(C) If both I and II follows

(D) If either I or II follows

(E) If none follows

Q17 **Directions: In the question given below, some statements are given followed by conclusion. Some words from the statement are missing. On the basis of given conclusions, you have to** choose which of the given word should be placed in the blank to complete the statement.

Statement:

All _____ are spoon

Some spoons are folks

No ladle is _____

Some ladle are spatula

Conclusion:

Some knife are ladle is a possibility

Some spatula are not folks

1. Ladle, knife

2. Knife, folk

3. Knife, spoon

(A) Only I

(B) Either II or III

(C) Only III

(D) Only II

(E) None of these

Answer Key

Q1	(D)		**Q10**	(B)
Q2	(C)		**Q11**	(B)
Q3	(B)		**Q12**	(B)
Q4	(C)		**Q13**	(A)
Q5	(A)		**Q14**	(C)
Q6	(D)		**Q15**	(E)
Q7	(C)		**Q16**	(E)
Q8	(A)		**Q17**	(D)
Q9	(A)			

Hints & Solutions

Q1 Text Solution:

Conclusion I: All car can be bicycle

All car can be bicycle is not true because only a few car are bicycle.

Conclusion II: All bike are car

All bike are car is not true because there is not direct relationship between bike and car.

Conclusion III: Some bicycle can be bike

Some bicycle can be bike is true because there is no negative relationship between bike and bicycle.

Only III follow.

Q2 Text Solution:

Hence, option C is the correct answer.

Final answer:

Statements:

II. Some D are A.

VII. Some G are D.

Conclusion:

V. All A can be G.

Q3 Text Solution:

Hence, option B is the correct answer.

Final answer:

Statements:

III. Some D are Z.

V. All Z are B.

Conclusion:

II. Some D are B.

Q4 Text Solution:

Hence, option C is the correct answer.

Final answer:

Statements:

I. Some A are C.

V. All C are B.

Conclusion:

VI. Some A are B.

Q5 Text Solution:

Hence, option A is the correct answer.

Final answer:

Statements:

II. Some D are B.

III. No A is B.

Conclusion:

V. Some D are A is a possibility.

Q6 Text Solution:

Hence, option D is the correct answer.
Final answer:

Statements:

I. Some B are C.

IV. Some C are F.

Conclusion:

VI. Some F can be B.

Q7 Text Solution:

**Hence, option C is the correct answer.**

Final answer:

Statements:
VI. Some A are B.

III. Only a few B are C

Conclusion:

I. Some B are not C.

Q8 Text Solution:

If Only conclusion I follow
Q9 Text Solution:

Clearly, Both I and II follow.

Q10 Text Solution:

Clearly, only conclusion II follows

**Q11 Text Solution:**

Clearly, only conclusion I follows.
Q12 Text Solution:

Clearly, only conclusion II follows.

Q13   Text Solution:

Clearly, both I and II follow.

Q14   Text Solution:

Both I and II follows

Q15   Text Solution:

Q16   Text Solution:

Q17   Text Solution:

Statement:

All _____ are spoon

Some spoons are folks

No ladle is _____

Some ladle are spatula

1. **Ladle, knife:** if we place ladle in first blank and folk in second blank, the least possible venn-diagram is given below

Conclusion:

Some knife are ladle is a possibility: false

Some spatula are not folks: false

2. **Knife, folk:** if we place knife in first blank and folk in second blank than the least possible venn diagram is given below

Conclusion:

Some knife are laddle is a possibility: true

Some spatula are not folks: true

3. **Knife, spoon :** if we place knife in first blank and spoon in second blank than the least possible venn diagram is given below

Conclusion:

Some knife are laddle is a possibility: false

Some spatula are not folks: false

Therefore, II is the correct option to be placed in the blank.
